Results for 9 months and Q3 2017
This presentation may contain projections concerning the financial situation and results of the activities and business lines of Amundi. The figures given do not constitute a “forecast” as defined in Article 2.10 of Commission Regulation (EC) No. 809/2004 of 29 April 2004.

These projections and forecasts are based on opinions and current assumptions regarding future events. No guarantee can be given regarding the achievement of these projections and forecasts, which are subject to inherent risks, uncertainties and assumptions related to Amundi, its subsidiaries and its investments, the development of its activities, sectoral trends, future investments and acquisitions, changes in the economic environment or in Amundi’s major local markets, competition and regulations. Given the uncertainty over whether these events will come to pass, their outcome may prove different than currently predicted, which may significantly affect expected results. The reader should take these risks and uncertainties into consideration before forming their own opinion. Management does not under any circumstances undertake to update or revise any of these projections and forecasts. No information contained in this presentation should be taken as an earnings forecast.

The figures given for the nine-month period ended 30 September 2017 have been prepared in accordance with IFRS, as adopted by the European Union and applicable at this date. This financial information does not constitute financial statements for an interim period as defined in IAS 34 (“Interim Financial Reporting”), and has not been audited or subject to a limited review.

The information contained in this presentation, to the extent that it relates to parties other than Amundi or comes from external sources, has not been independently verified, and no representation or warranty has been expressed as to, nor should any reliance be placed on, the fairness, accuracy, correctness or completeness of the information or opinions contained herein. Neither Amundi nor its representatives can be held liable for any negligence or loss that may result from the use of this presentation or its contents, or anything related to them, or any document or information to which the presentation may refer.

Integration of Pioneer
Pioneer: integration process well under way

- **New organisation in place since June 2017**

- A confirmed phasing of synergies (before tax: €150m in cost synergies, €30m in revenue synergies)
  
  ~10% of synergies achieved in 2017
  
  ~35% of synergies achieved in 2018
  
  ~75% of synergies achieved in 2019
  
  100% of synergies achieved in 2020

- **Successful launch of the integration plan**
  
  - deployment of plans to achieve synergies
  
  - finalisation under way of staff departure plans stipulated in certain countries, in compliance with local corporate regulations
  
  - first IT migration planned for November 2017
  
  - first legal mergers of entities by the end of 2017

Announced calendar respected
Potential for value creation confirmed
Conclusion
Good momentum for the new Group

1. Business momentum is staying high, driven by all of the business lines (client segments, expertise, and regions)

2. Results up significantly, thanks to:
   - Pioneer’s contribution
   - continued sales momentum
   - a favourable market environment

3. Integration process well under way
Appendices
Definitions and methodology (1/2)

1. Income statement

- Accounting data
  In 2017, the data consists of Amundi’s nine months of activity and the third quarter of Pioneer activity since 1 July 2017. In 2016, the data consists of Amundi’s first nine months of activity.

  To present an income statement that is closer to the economic reality, the following adjustments have been made:
  - In 2017: restatement of Pioneer-related integration costs
  - In 2016 and H1 2017: amortisation of distribution contracts (deducted from net revenues) with SG and BAWAG
  - In Q3 2017: amortisation of distribution contracts with SG, BAWAG, and UniCredit

- Combined data
  In 2017 and 2016, the data consists of:
  - For the nine months: combined data for Amundi (nine months of activity) and Pioneer (nine months of activity).
  - For Q3: combined data for Amundi (Q3) and Pioneer Investments (Q3).

  Pioneer data for 2016 and H1 2017 include notably the following items:
  - Scope affected by the transaction (ex Poland and ex India)
  - Normalisation of Pioneer’s tax rate

- Note:
  - Costs associated with the integration of Pioneer:
    9M 2017: €59m before tax and €41m after tax
    Q3 2017: €27m before tax and €20m after tax
  - Amortisation of distribution contracts:
    SG and Baw: €4m per quarter (€3m net of tax)
    UniCredit: €14m per quarter (€10m net of tax)
    SG, Bawag and UniCredit: €18m per quarter (€12m net of tax)
Definitions and methodology (2/2)

2. Amortisation of distribution contract with UniCredit

When Pioneer Investments was acquired, 10-year distribution contract were signed with UniCredit networks in Italy, Germany, Austria and Czech Republic; these contracts’ gross valuation is €546m (posted to the balance sheet under Intangible Assets). At the same time, a Deferred Tax Liability of €161m was recognised. Thus the net amount is €385m which will be amortised using the straight-line method over 10 years, as from 1 July 2017.
In the Group's income statement, the net tax impact of this amortisation will be €39m per year, posted under "Other revenues," and will be added to existing amortisations of the SG and Bawag distribution contracts (€11m per year).

3. Classification and counting methodology for AuM

To ensure that counting by asset class is consistent with Pioneer, presentation of the Group's AuM and net income by asset class has been harmonised. This change doesn’t change the total amount of AuM.

In addition, given the alignment of counting methodologies for AuM, Pioneer's AuM were integrated at 30 June 2017, including AuM in Funds of Funds* (+€22bn in the Institutionals segment). This change does not affect the amount of asset management net revenues.
