The French law on Energy Transition adopted in 2015 requires companies with over 500 employees to carry out an assessment of its emissions of greenhouse gas (GHG). GHG are at the source of global warming. They are measured in ton CO\textsubscript{2} equivalent (tCO\textsubscript{2}e).

The 2015 Carbon footprint was calculated following the Bilan Carbone® method. In order to reflect the reinforcement of its international perimeter, Amundi chose in 2019 the GHG protocol methodology to evaluate its 2018 emissions. Hence, no comparison is possible with the 2015 carbon footprint.

The GHG protocol, developed by the World Ressources Institute (WRI) and the World Business Council for Sustainable Development, defines international reporting standards for estimating and reporting GHG emissions.

The reporting period covers 1 January 2018 to 31 December 2018.

Amundi made the decision to calculate its carbon footprint on the 3 scopes of the GHG protocol. The data was collected in entities with over 100 employees. The high coverage rate (89.2% of total workforce) enabled an extrapolation of the results to entities with less than 100 employees.

**Total GHG emissions:** 47,000 tons CO\textsubscript{2}e
- > 9.3 tons CO\textsubscript{2}e / employee

**In France:** 26,000 tons CO\textsubscript{2}e
- > 9.9 tons CO\textsubscript{2}e / employee

**International:** 20,000 tons CO\textsubscript{2}e
- > 8.7 tons CO\textsubscript{2}e / employee
AMUNDI’S 2018 CARBON FOOTPRINT IN DETAILS

**Breakdown of GHG emissions by item in %**
- **Freight <1%**
- **Waste <1%**
- **Cooling network 1%**
- **Energy 11%**
- **People transportation 20%**
- **Capital goods 22%**
- **Purchase of services and goods 46%**

**47,000 tCO₂e**

**Breakdown of GHG emissions by country in tCO₂e**
- **France**: 26,748 tCO₂e
- **Italy**: 7,073 tCO₂e
- **United States**: 3,032 tCO₂e
- **Ireland**: 2,284 tCO₂e
- **Austria**: 2,250 tCO₂e
- **United Kingdom**: 959 tCO₂e
- **Japan**: 813 tCO₂e
- **Germany**: 709 tCO₂e
- **Other entities**: 3,227 tCO₂e

**Country** | **France** | **Italy** | **United States** | **Ireland** | **Austria** | **United Kingdom** | **Japan** | **Germany** | **Other entities**
--- | --- | --- | --- | --- | --- | --- | --- | --- | ---
**FTE number** | 2,712 | 357 | 531 | 445 | 143 | 184 | 188 | 143 | 346
**Emissions by FTE** (in tCO₂e) | 9.9 | 19.8 | 5.7 | 5.1 | 15.7 | 5.2 | 4.3 | 5.0 | 9.3

**Breakdown of GHG emissions by country and by item in tCO₂e**

- **Purchase of services and goods**
- **Capital goods**
- **People transportation**
- **Energy**

**November 2019**
