Methodology and API (1/2)

Accounting and adjusted data

Accounting data

 Information corresponds to data after amortisation of the distribution contracts and, in Q3 and 9M 2021, after the impact of Affrancamento.

Adjusted data

To present an income statement that is closer to the economic reality, the following adjustments have been made:

- restatement of the amortisation of distribution contracts (deducted from net revenues) with SG until November 2020, Bawag, UniCredit and Banco Sabadell.
- In Q3 and 9M 2021, non-recognition of a one-time tax gain (net of a substitution tax) of +€114m (no cash flow impact):
 "Affrancamento" mechanism under the 2021 Italian Budget Law (Law no. 178/2020), resulting in the recognition of Deferred Tax Assets on intangible assets (goodwill); this was excluded from Adjusted Net Income.

Amortisation of distribution contracts:

- Q3 2020: €21m before tax and €15m after tax
- Q3 2021: €17m before tax and €12m after tax
- 9M 2020: €56m before tax and €40m after tax
- 9M 2021: €51m before tax and €37m after tax

2. Amortisation of the distribution contract with Banco Sabadell

- When Sabadell AM was acquired, a 10-year distribution contract was entered into with Banco Sabadell in Spain; this contract's gross valuation is €108m (posted to the balance sheet under Intangible Assets). At the same time, a Deferred Tax Liability of €27m was recognised. Thus the net amount is €81m which is amortised using the straight-line method over 10 years, as from 1 July 2020.
- In the Group's income statement, the net tax impact of this amortisation is €8m over a full year (or €11m before tax), posted under "Other revenues", and is added to existing amortisations of distribution contracts:
 - with Bawag in the amount of €2m after tax over a full year (€3m before tax);
 - with UniCredit in the amount of €38m after tax over a full year (€55m before tax).

Note: amortisation of the SG contract (per year: €10m after taxes, i.e. €14m before taxes) was discontinued as of 1 November 2020
